

Whitehaven Coast Masterplan Proposals - Landscape Works Preliminary Design

Preferred Options - Urban - Geo Seating Range

Slats
Iroko hardwood

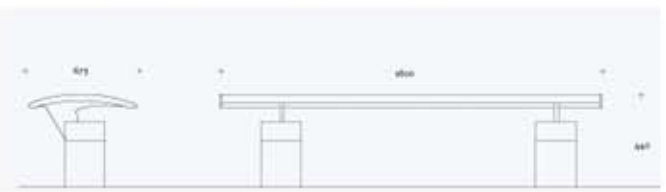

Frame
shot peened 316 grade stainless steel,

Legs
galvanised and painted mild steel.

Fixing
Flange plate fixing to foundation pads 150mm below finished level

Options
Alternative finishes (sealed hardwood, satin stainless steel)
painted legs, planted root fixing

The Geo Seat combines high quality stainless steel and hardwood from replenishable sources. Stainless steel endplates are laser-cut to follow the seat profile. Two legs in galvanised and painted mild steel, with stainless steel caps, support the seat.
